**Part B for** June 1944

**SUBJECT**

Re' Sanction to the entertainment of an establishment required for motion picture R.d from Elgin fountain to the D.C. offices at Mysore

The Chairman C & I T Bd Mysore
Post Cir Rd Cl Mysore
Chief Engineer Pds & Bldgs
Comptroller

Lrs 12-0160-3 dated 6.6.44

Sanctions with an observation

7/6/46

Letter No B2 C1027/42-43 dt 2-5-44 from the Chairman of Improvement Trust Board, Mysore, forwarding a statement showing the establishment required in connection with the execution of the work relating to the formation of a straight road from the Elgin Fountain to the District offices at Mysore and requests sanction to the proposal.

1) The cost of the work is estimated to be about Rs 5,50,000/- and it is proposed to take up the work in four stages.

2) The establishment charges required for the four stages are as follows:—

| | | |
|---|---|---|
| First stage (14 months) | Rs | 10,800 |
| Second Stage (12 months) | " | 12,500 |
| Third Stage (12 months) | " | 12,500 |
| Fourth Stage (18 months) | " | 6,500. |
| Total | | Rs42,300 |

3) It is also stated that there will be no expenditure during the current year as the estt. required will be entertained only after the sanction is obtained

4) The Chief Engineer for Roads & Buildings will also be consulted, if applde

Submitted for orders. The work to be taken up is in accordance with the instructions issued by the Dewan on 19-3-44

MB 8/5

5 In connection with the formation of a straight road from the Elgin Fountain to the District Offices at Nagpur, it was stated that 340 properties would have to be acquired and all the approximate estimate of cost for the work is Rs 550,000 & the work has been ordered to be taken up in four steps, covering the period from May 1944 upto to end of June 1948. The scheme was subjected to be a self-supporting one

6 The Chairman, City Improvement Trust Board has requested sanction to entertain an establishment at a cost of Rs 10,800/- for carrying the first steps of surveying & preparing detailed drawings & estimates for the entire scheme. This would occupy 14 months. It is stated that necessary provision will be made therefor in the Trust Board Budget for 1944-45.

7 The scale of establishment asked for may therefore be allowed to be employed. There is however no necessity to give any allowance either to the Chairman, the Engineer Officer managing the draftsman. It cannot of course be made in the case of these officers as these officers cannot expect to get such allowances for each & every work of the kind undertaken by the Trust Board. Hence the proposed provision of Rs 10000/- may be sanctioned to be made in the Trust Board budget for 1944-45 including the salaries allowances for the officers which are not proposed to be made in the estimate

Mr 12-43-21 5

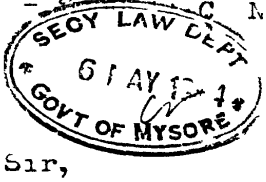
Office of the Chairman,
City Improvement Trust Board, Mysore

Dated 2nd May 1944

From

R. RAMACHANDRA RAO BAHADUR, Esq , B A ,
THE CHAIRMAN,
*City Improvement Trust Board,*
*Mysore*

To



C. Narayanaswamy Naidu, Esq , B A , B L ,
Legal Remembrancer & Secretary to the Government of
His Highness the Maharaja of Mysore, Law Department,
Bangalore

Sir,

I have the honour to state that in the Notes of Inspection of the Mysore City by the Dewan on 19th March 1944 received with your letter No L 10464 dated 8th April 1944 instructions have been issued that plans and estimates for the work of forming a straight road from Elgin Fountain to District Offices at Mysore may be prepared with a view to execute the work in four - stages As the proposed road runs through a very congested area the number of properties involved for acquisition is very large viz , 340, some of which are quite costly buildings The area has first to be surveyed and detailed estimates have to be prepared not only for the 340 properties to be acquired but also for the formation of the road including concreting its surface and providing underground storm water drains and ducts for carrying water main etc as the existing staff is hardly adequate to cope with the routine work of the Board which by itself is increasing in volume, a separate establishment as noted in the statement enclosed is absolutely essential for the preparation of necessary drawings and detailed estimates for this important scheme which is roughly estimated to cost Rs 5,50,000/- A statement setting forth a programme of works to be carried out each year and the establishment required - therefor was therefore prepared and placed before the Board at the meeting - held on 26th April 1944, and was approved vide copy of Resolution No 363 enclosed herewith

2 The first stage of surveying and preparing detailed drawings and estimates for the entire scheme is expected to take about 14 months and the establishment charges as per details furnished in the above statement would be Rs 10,800/- The staff provided is the minimum required and allowances have been recommended to some of the Officers and Officials of the Board as

P T O

the preparation of the scheme on account of its magnitude and importance requires, constant attention and involves an increase in the work and responsibilities of these officers and officials

3. As the current financial year is drawing to a close and as the establishment can be entertained only after the receipt of necessary Government sanction therefor, no additional funds will be necessary during the current year Needful provision will be made in the next year's budget for the establishment charges

4 The scheme will eventually be found to be self-supporting as the sale of shop sites on both sides of the proposed road is expected to fetch the entire amount expended over the scheme The question of financing the scheme in the first instance, will be taken up with Government before the actual execution of the work commences Meanwhile I request that sanction of Government may kindly be communicated for the entertaining of the establishment required for the preparation of drawings and estimates

5 Favour of early orders is solicited

I have the honour to be,

Sir,

Your most obedient servant,

Chairman

MYSORE CITY IMPROVEMENT TRUST BOARD

# CITY IMPROVEMENT TRUST BOARD, MYSORE

MYSORE

Dated 24th April 1944

NOTE REGARDING THE ESTABLISHMENT REQUIRED FOR THE WORK OF FORMING A STRAIGHT ROAD FROM ELGIN FOUNTAIN TO DISTRICT OFFICES

The dewan in company with the Minister for Local Self-Government and Public Health inspected the spot on 19th March 1944 and in the Notes of Inspection received with Law Secretary's letter No L 10464 dated 8th April 1944 instructions have been issued that the scheme may be prepared in four stages as noted below:-

| | |
|---|---|
| First Stage | Forming a Circle including acquisition of Lansdowne Buildings and a few private properties for forming shop sites along the Circle |
| Second Stage | Forming the road from the Circle up to Santepet |
| Third Stage | Forming the road from Santepet to Chamundeswari Road |
| Fourth State | Completing the balance length of the road from Chamundeswari Road to District Offices |

As the area has to be surveyed, statistics collected, acquisition statements prepared, before the comprehensive estimate is prepared and submitted to Government for the work, a separate establishment has to be sanctioned for the purpose This work is expected to take about 14 months commencing from 1st May 1944 As per details furnished in the statement the cost of establishment for this period will be Rs 10,800/-

For the second period from July 1945 to June 1946 acquisition proceedings will be commenced and awards passed Some increase in the establishment including an Assistant Commissioner for acquisition work for the latter half of the year will be necessary and the total cost of establishment for the second yearWill be Rs 12,500/-

During the third year the Acquisition Officer will be continued for a period of six months to complete the Acquisition work Besides this the work during the year will consist of dismantling

P T O

of properties, forming roads and foot-paths, disposal of sites and commencement of construction of buildings and the cost of establishment will be the same as in the second year that is Rs 12,500/-

During the fourth year the work mainly consists of supervision of construction works The establishment will be reduced retaining only the minimum staff necessary for the supervision work and the cost will be Rs 6,500/-

Thus the total cost of establishment to work out the entire scheme which as now roughly estimated costs to Rs 5,25,000/- will be Rs 42,300/- or 8% of the estimate
